

# Services We Provide

- Septic tank pumping
- Septic system inspection
- Repairs on most septic systems
- Drainfield restoration
- Unclog drain lines
- Water testing for all loan types (FHA, VA and conventional)

- Most water results are available in 24 to 48 hours
  - If necessary we disinfect the well and retest the water
  - Application of drainfield restorative and soil treatment
- If you have any questions about your water quality or septic system, call us at 757-859-9494

Cleaning out distribution box and drainfield lines

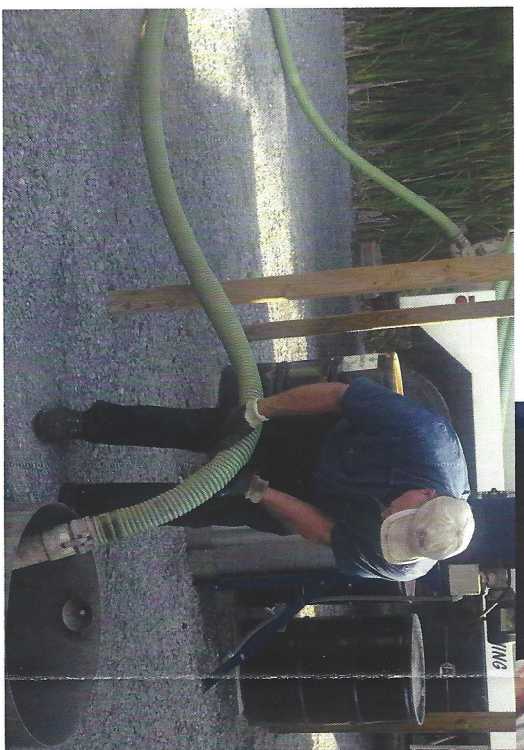

*"As a realtor, you want what is best for your client." If your client is selling or purchasing an older home call us to discuss the options.*

After the inspection has been completed and all repairs have been made, a clear septic certification letter will be provided quickly.

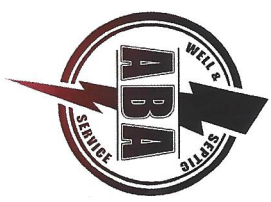

## Testimonial

*As a realtor I need a dependable, professional partner to recommend to my clients. After several nightmarish experiences with several other companies I found A.B.A Well and Septic Services and I have been overwhelmed! Their service is dependable, the technicians are professional, knowledgeable, and helpful.*

*- Fay Grant, Keller Williams*
